image sorter plugin How do I search what is installed? Mion, dpkg -l | grep -i "PIC" cfhowlett: it's working thanks :) How do I check which filesystems are mounted? Draton: mount | grep /mnt EriC^^: thanks! EriC^^: I got 3 mounted at / at / and at /media Draton: /media are ntfs? nope, ext4 ok thanks again Draton: Check the contents of /etc/mtab and /etc/fstab bekks: ah, yeah. those are the normal ones. oh thanks. thanks bekks :D in system-config-samba, there's a checkbox "Allow users to map drives". Does that mean samba users can map their home folder into a remote server? jatt, yes can't find any documentation for that so samba users can map their home folder into a remote server, but not the other way around? or can they? jatt, correct Hi this is a little strange, I mean, the documentation for both options says they can !samba | jatt, read. jatt, read. Samba is the way to cooperate with Windows environments. Links with more info: and - Samba can be administered via the web with SWAT. they even have their own page 82157476af
